

Our reception staff are trained to direct you to the most appropriate person to meet your needs if you are in anyway unsure about who it is you must see.

In order to do this, personal questions may be asked. This will enable them to allocate you an appointment with the person most equipped to deal with your problem, at a time that suits you.

Thank you for taking the time to read this leaflet, we hope you have found it helpful and informative.

If you have any suggestions please send them to our PPG (Patient Participation Group) at:

Nursing Services

At Academy Medical Centre, we strive to make your journey into the health care system as easy and accessible for you as possible.

Lifestyles, attitudes and demands are changing and so is access to your health care system. We now have highly skilled nurses who can deal with many of the conditions which, in the past, were performed by GPs. This frees up the GP's valuable time for the more complex duties required of them.

Practice Nurse Team

Pam Welsh
Trish Stewart

Lorraine Forsyth
Keri Garland

All Practice Nurses provide the following Treatment Room Services:
